FABRICATION

Fully customizable solutions to increase the accuracy and productivity of your frame and truss lines.

/ SUMMARY

The Vekta AutoNailer is our premium wall panel fabrication system.

With automatic positioning of the wall panels, even the most inexperienced operators can assemble complicated frames.

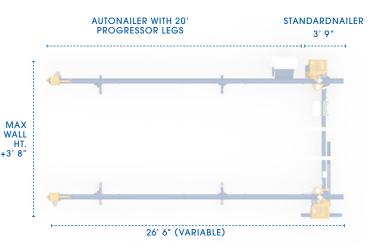

Intelligently guided via our proprietary software, operators are led through step-by-step whilst keeping track of building metrics and statistics.

/ FEATURES -

- Full integration with our range of conveying, finishing and stacking options
- Vekta's whole framing line requires minimal maintenance and upkeep and can be built to accommodate any size frames or lumber
- One touch clamping and nailing of top/bottom plates

/ OPTIONS

- Smart touch screen
- Customizable sizing and delivery and outfeed options to suit your plant setup and needs
- *Size and length option configurable

/ SPECIFICATIONS

Production capacity per 8 hour shift	AutoNailer: 800-1600 linear ft StandardNailer: 500-1000 linear ft
Cycle time	<3 secs
Min. wall height	4' 11"
Max. wall height	Variable - up to 13' 9" max.*
Max. wall length	AutoNailer: 20' (based on progressor length) StandardNailer: Unlimited
Lumber sizes	2″x3″ to 2″x6″
